About the University

The Tamil Nadu Teachers Education University has been established by the Tamil Nadu Government Act 33 of 2008. The Tamil Nadu Teachers Education University was established for the cause of promoting excellence in Teacher education. This University is unique in nature relatively to the other Universities since its assignment is to promote Excellence in Teacher Education and produce dynamic and smart teachers for the benefit of the Society and the Nation at large. The University is an affiliating one with the jurisdiction of Tamil Nadu. The University offers B.Ed., M.Ed., M.Phil., and Ph.D Programmes. Tamil Nadu Teachers Education University has established six Departments of Study and Research and about 731 Colleges of Education are affiliated to Tamil Nadu Teachers Education University including government, government-aided and self-financing colleges in whole of the Tamil Nadu State.

The Department of Pedagogical Sciences

The Department of Pedagogical Sciences is a beehive of academic activities from its inception in 2014. It is one of the significant Departments of Tamil Nadu Teachers Education University. The members of the faculty keep in constant touch with the latest developments in the field of Pedagogical Sciences. The research activities of the department's Faculty are in organic harmony with their teaching activities. The vision of the Department is to prepare competency based commitment oriented teachers, to provide pedagogical formation for the teacher candidates for the educational subjects and to give information of students for the doctoral program in the field of pedagogy. The members of the faculty carry out research work in accordance to the general plan of the department. The system of preparation of scientific and pedagogical staff actively functions at the department through postgraduate studies.

Rationale of the Seminar

Everyone has dreams, goals, and unique skills, however, requires planning and action is very important strategies of success in every area of life at present technical scenario. The Seminar aims at analyzing the strategic directions focused on skill development and goal setting strategies for urban and rural students. Learning how to set goals and work to achieve them is one of the skills that students need to learn. Life skills are a basic that gives students for success in their life. Future generation of students should know about their skills and goals that will be important to navigate life successfully. As an educator, it is our responsibility to help students reach their full potential by teaching necessary life skills. Learning experiences should help students learn how to set and take steps towards accomplishing goals. Goal setting is an important life skill that students should learn for their development of career.

Basically students have some skills it has to be brought and utilize. By setting goal and measuring their achievement, students are able to see what they have done and what they are capable of. It gives the confidence and assurance that they need to believe they can achieve higher goals. The Rural and urban Future Programmes therefore facilitates new thinking and broad agreement with respect the vision of making skillful persons in society, strategies and plans also to be create by our government for rural and urban economic development and the reduction of rural and urban poverty and inequality.

The overall aim of the seminar is to develop an emerging field at skills and goal setting strategies are the vital and central component for structural changes for the future achievement of the rural and urban students. In our approach to tackle the students achievements, it will build on the existing body of work on education and culture, but its aim is explore and develop new perspectives in this area particularly in the rural and urban space .
