1. INTRODUCTION

Sports is a means of physical and mental development besides creating harmony in the country. Sports is like a matrix where persons of all creeds, color, religion and socio economic status have the level playing ground. It's a melting pot where all and sundry have equal rights and opportunities. Sports is, thus, a glowing example of national integration. The participation in sports makes a nation fitter and also reduces the burden of morbidity and mortality in the population. Indian people are by nature sedentary and as such, the load of life style diseases is increasing on the health system of the country exponentially. Keeping in view the fact that a fitter nation is better in performance in all parameters, it is important that the Tamilnadu Teachers Education University wishes to conduct Various Sports and Cultural meets for Students Studying under this University at College, District, Zonal and State Level.
