ABOUT THE WORKSHOP

One of the most radical premises of leadership is leading the public, by enticing them and by sharing them the directions towards the goals. Modern day teaching professionals and educational leaders are facing many new emerging challenges and issues in their day-to-day life. A leader is one, who knows the way, goes the way and shows the way. Leadership is only about the vision and responsibility, not the power alone. Today's leaders are mostly adopted the role of leaders without proper education as well proper training/internship and the prior experience in the concerned area of work, which result in hindrance to discharge their duties and responsibilities candidly.

Historically the role of the principal has tended to focus on the responsibilities in functional areas such as administration, planning, finance, student welfare and reporting. In these context, less emphasis has been placed on the principals role as decision-maker as an educational leader in enhancing of college improvement and quality teaching-learning. The Tamil Nadu Teachers Education University is intended to organize A Three Day Workshop on "Leadership Development Programme for the Principals of Colleges of Education" affiliated to TNTEU, to enhance their capabilities and caliber to deal with the entire stakeholders of the higher education system, especially in the teacher education.
