Sponsored

A Two Day National Workshop

On

Fill the Mind Gap by Occupational Skills

on 18th & 19th December 2019

Organized by

Department of Educational Technology
Tamil Nadu Teachers Education University
Chennai - 97.

About the Workshop

Indian school environment and curriculum focusing more on school subjects for future employment of the students and most of the schools allocate a very few hours for skill based activities like ie., Yoga, Chalk Piece Art (Sculpture), Collage art, Media Design and Painting, Vocal, Origami and Glass Painting and Drawing. In most of schools full fledged teachers are not available for handling skill based subjects and stimulate occupational skills among students.

In schools or colleges when available free time for students, we fill the mind gap by occupational skills based education. It is very useful for students and it reduces unemployment in future society. As well as, it reduces the work tiredness, stress and learning anxiety. It develops knowledge, mental health, and attitude and regulates the misbehavior of the students. It is volunteer involvement activities and it is not make compulsion and depression to the students. It is very helpful for the teachers to identify vocational interest students and give proper guidance and counseling, so, we direct correct pathway for bright future to them.

In this workshop creates, develops and revamps the teacher educators Physical activities, Personal developments and Social Learning skills and it develops Career Building to the future generation. It discovers and understands the interrelationship between life and work roles. It develops the Skill to manage their pathways throughout their working lives as well as, develop their knowledge, understanding and experience of opportunities in education, training and employment and it is the best practice for present and future generation.

Tamil Nadu Teachers Education University

The Tamil Nadu Teachers Education University has been established in 2008 by the Government of Tamil Nadu for promoting excellence in Teacher Education. This University is unique in nature relatively to other Universities since its assignment is to promote excellence in Teacher Education and produce dynamic and smart teacher products for the benefit of society and the nation at large. It is such a divine task to monitor all the affiliated Colleges of Education including Government, Government Aided and Self-financing Colleges of Education including in the whole of Tamil Nadu.

About the Department

The Department of Educational Technology is established in 2014. It strives to promote high academic standards in education by creating an optimal and enriching learning environment, fostering on-going professional and personal development thereby contributing effectively to societal needs.

★ **Master of Philosophy (M.Phil)**

★ **Doctor of Philosophy (Ph.D)**

The Department of Educational Technology provides Teacher Education with a special focus on Educational Technology. It was an innovative effort to spread the concept of Educational Technology among the teaching community at various levels. It is one of the Department in Tamil Nadu Teachers Education University, within six years after its inception, the Department today stands as a important centre for study and research in Education, in general and the development and application of Educational Technology, in particular. The Department has made significant contribution in Teacher Education viz., Teaching, Research and Extension.
