GUIDELINES FOR SUBMISSION OF M.Phil RESEARCH PROPOSAL

College Code & Name:	Eligibility Application No.:
	Name of the Student:
Title of the Proposal :	

Every M.Phil. candidate should submit his/her research proposals in the format as given below.

1.0 Statement of the Problem

State the research problem that you have chosen. A problem often implies that a controversy or difference of opinion exists. Research problems can be derived from theory, prior research results, or personal observation and experiences.

2.0 Title of Study

Write the title of your research problem.

3.0 Significance of the Study

Briefly mention the usefulness of the research. Indicate the benefits of the research findings.

4.0 Review of Related Literature

Make a brief review of literature relevant to your research problem.

5.0 Hypotheses

Formulate a major hypothesis based on the variables of your research problem. You can formulate some minor hypotheses, too. Hypotheses should be generally based on prior research and / or theory. The hypotheses can be stated in a declarative or question form.

6.0 Methods

6.1 Subjects:

Indicate the population from which you plan to select the sample.

Indicate the sample size: The number of subjects to be selected from the population.

Sampling technique: Indicate **where** and **how** the subjects are to be selected.

6.2 Procedure:

Outline the research plan:

Explain the procedure that you are going to follow in carrying out the study. Indicate **what data** will be needed and **what data gathering devices** (research tools) will be used.

6.3 Data Analysis:

Explain the methods that will be applied in analyzing the data based on the hypotheses stated.
