VOCATIONALIZATION OF HIGHER EDUCATION OF RUSA (OBP)

The vocational training started on 20.12.2021 and continued up to 22.12.2021. The M.Ed students of both first year and second year participated and benefitted through this vocational training in many ways. We the prospective teachers mainly focus on the methodologies of delivering the syllabus content to the learners and concentrate more on the learning outputs. It is an undeniable fact that bringing behavioural changes to the learners is as important as subject teaching. But we face a lot of struggles in implementing knowledge and inculcating morality among each and every learner whom we teach. But through this vocational course we gained so many practical ideas about how a class room should be planned well to bring out both learning and behavioural outcomes from the learners, as we ourselves learned personally. Especially inculcating moral values among students is a challenging task for a teacher. But through all the sessions, we learned that best way to inculcate moral among students is not just by preaching but by practicing in real time in front of the learners. As teacher educators we learned lot of tips and learning items from all the resource persons. All the sessions were very innovative and were very useful for us.

JALLIKATTU

Jallikattu could be referred to as Bull taming event, typically practice in Tamil Nadu as a part of Pongal celebration on Mattu Pongal day. It is our traditional festival at ancient times in which all of the players attempt to hug a bull while the Bull tries to knock them off. People try to remove the flag that has been attached to the bull's horn. There are also many paintings in Tamil Nadu caves which depicts many men attempt to tame bull and this pictures were created about 1500 years ago and they portray this practice. As this game Jallikattu is enjoyed by everyone because this is our tradition. For Tamils jallikattu is a symbol of the wisdom of our civilization which is an inseparable part of our culture.
