God Made Teachers

When God created teachers,
He gave us special friends
To help us understand His world
And truly comprehend
The beauty and the wonder
Of everything we see,
And become a better person
With each discovery

When God created teachers,
He gave us special guides
To show us ways in which to grow
So we can all decide
How to live and how to do
What's right instead of wrong?
To lead us so that we can lead
And learn how to be strong

Why God created teachers,
In His wisdom and His grace,
Was to assist us to
Learn to make our world
A better wiser place...

Education

Education is to enlighten...
From teaching moral values
To face difficult conditions
Education is an experience
That makes you a noble person.

Education is the thing,
Which teaches you, how to behave
How to respect and how to swim across the wave.

Education is everything
It is not just the learning of the facts but
It is the training of the mind to think, act & relax....!!!!

EXAMPHOBIA

MEANING:

Exam phobia is an irrational fear that leads to avoidance of the feared situation or object which in turn increases the severity of the phobia. The students having an excessive and unreasonable fear due to exam or the presence or anticipation of a horrible

Ten ways to overcome Exam Phobia

1- Ensuring early preparedness

The simplest way to overcome anxiety is studying so hard for examinations that a certain level of confidence can cover up anxiousness. Cribbing over difficult concepts will only result in unpreparedness and consequently, enhanced stress-

level. It is always advisable to brainstorm a schedule that enables one to engage in group discussions, take tuition from the subject expert and read relevant topics.

Knowing the pattern of questions beforehand can not only help in solving different types of questions promptly but also decrease stress level gradually and lessen last minute hassles.

2- Watch self-talk

When you are questioning your own performance, the trap of negativity already takes place in the scenario.

Anxiety can only bring negative thoughts to foster; hence it is always advisable to watch your words carefully before abiding it. Labelling you as "Foolish" and exclaiming "Oh! I must have studied that topic well." won't help in any manner. Rather, you should come up with positive affirmations like: "Yes! I am going to give my level best." and "My bright future won't turn dark if my paper goes a little off track."

3- A sense of accomplishment

Prolific personalities and aristocrats consider themselves to be successful before accomplishing a certain task, even. A clear vision of success helps one succumb anxiety and handle things with ease and comfort. Imagining

yourself committing well in any task, can bring fruitful results.

4- Implementation of relaxation strategies

A brisk walk through meadows, progressive muscle relaxation, regular yoga sessions, etc. must be performed by any candidate before the examination arrives. It provides him/her with utmost positivist and strength to keep his/her calm during examination and fights with unwanted stress.

5- Maintain your health

After conducting successful research, it has been found; maximum candidates remain physically unfit due to examination stress. It is advisable to take adequate sleep, keep hydrated and perform yoga or hands-free exercise to stay physically as well as mentally fit. Excess caffeine contributes to anxiety; hence its consumption should be avoided. Besides that, a wholesome breakfast and a balanced diet are equally necessary to keep well.

6- Being punctual

Arriving a few minutes prior to the assigned time for examination reduces enhanced stress, and one should keep a safe distance from those candidates who panic during such a situation. It is advisable to keep a magazine handy to distract from unpleasant situations and keep yourself occupied.

7- Concentrate while writing for examinations

Looking into your own flaws and correcting them is the best thing to do. It is always good to introspect a bit, while holding the pen in your hand and taking a deep breath, ultimately, to pen down a profound answer. Focus! It is always advisable not to panic after seeing the tougher problems, rather solve the easier ones first to ensure obtaining full marks for the same. A quick recapitulation of the written answers ensures its accuracy.

8- A little anxiety

A little anxiety is always a good thing. Without being anxious, one may not be able to manage his/her own level of success. Stress brings motivation to perform better every day. So, keeping that in mind, a little stress does inspire you to be better off in examinations.

9- Failure=Success

It is always wise to accept failure sportingly because it has always proven to be the stepping stone towards success. Getting an undesirable grade doesn't mean you are done with your life, and nothing is left in this world. There's always a second time to rise and shine. Always have the capability to learn from your mistakes in the past, work for it in the present to create a better future.

10- Gift yourself

It is always amazing to get rewarded for the incredible work you have done, and it is you, who understands it way more than others. Hence, reward yourself whenever possible, take necessary breaks while studying, have good food, chat with your friends and just close your eyes for some time to unwind and relax. It helps!
